

## CONSULTATION SERVICES

Our complete consulting services provide you with cutting edge thinking from the foremost experienced person in the composites industry. Mr. Wolfgang Unger has over 45 years of experience in the composites and recycling industry.

Educated in Germany, Mr. Unger holds a Masters in Marine Engineering and has developed new systems in the molding, recycling and fiberglass industries over the years. He also has hands-on production experience with tub and spas, boats, thermoforming molds, and architect-

tural products fabrication. Additionally Mr. Unger is experienced in product design, prototyping, and producing in all these areas and more.

Now his expertise is available to you. If you have questions about mold-making, call him. If you want to learn about recycling FRP scrap and reusing it, contact him. If you need to repair the transom of your old boat, email him with questions. There is almost nothing that he can't answer. And if he doesn't have the answer right then and there, he will make sure to find someone to help you.

Mr. Unger can also help you with designing custom machinery, finding cost-cutting solutions such as custom formulations or recycling your fiberglass waste, to setting up a complete turnkey factory. He has the experience and knowledge to make it happen.

Mr. Unger can be reached at [admin@seawolfindustries.com](mailto:admin@seawolfindustries.com) or 386-689-2399.
